Sub:- Permission for designing new online website for the college.

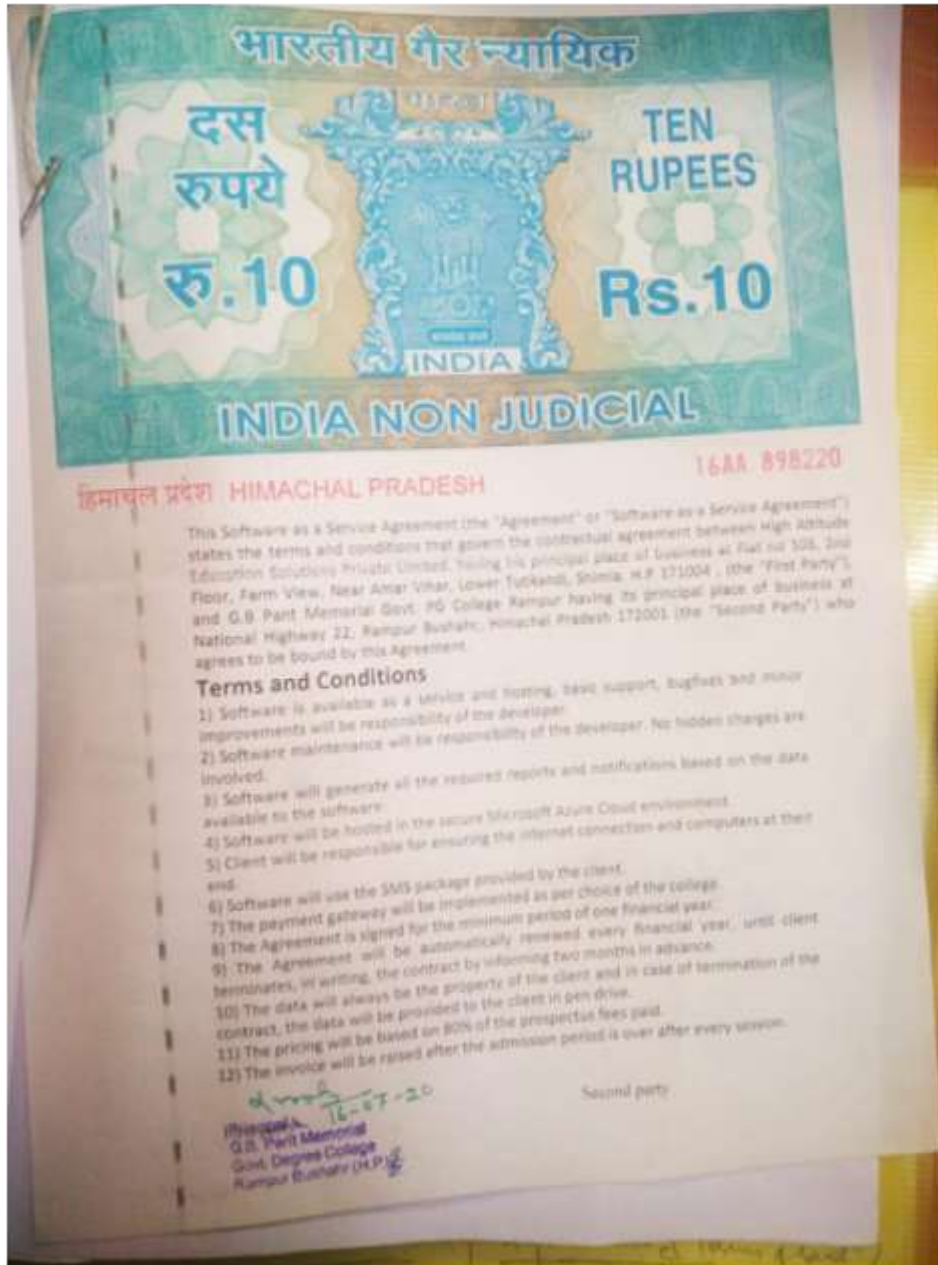

Respected Sir,

With submission that at present college has its own website i.e. www.gesampur.nic.in. The domain of this website is being controlled by NIC (National Information Center) of B. and provide us limited space in domain for uploading the information. We find that limited space is not possible to upload all the necessary information by the college and not enable us to edit the website. So there is immense need of designing new online website for the college from the private company which can provide us the sufficient space in the domain for uploading the information as well as editing the website by the college. Therefore you are hereby requested to give your prior permission for designing the new website for the college so that we can start the concord formalities for the said purpose.

Thanking You!
